Logging Into The Portal

Step 1: E-Mail Confirmation
You will receive an e-mail from Florida State University Health Services notifying you that you have been web-enabled. The e-mail will provide a temporary password.

Step 2: Logging In
https://health.eclinicalworks.com/fsu
Log into the portal using your temporary password.

Step 3: Change Your password
After the first log in attempt you will be prompted to validate your information for security purposes. At this point you may change your password.

Step 4: Enjoy the Health Portal!
After you complete these steps you will be WEB-ENABLED.

For any questions please e-mail
UHSIT@fsu.edu

Patient Benefits

With the Patient Portal, you will have access to:

- Appointments
  Book and keep track of appointments
- Lab Results
  Access and view lab results
- Medication
  List of current medications
- Medical Records
  View your personal health record
- Reminders
  Receive health reminders
- Messages
  Receive messages from staff

All lab results are posted to the portal. Any results that are missing please email UHSIT@fsu.edu

Get Web-Enabled

A feature of the Florida State University Health Services electronic medical record (EMR) is the UHS Patient Portal. The patient portal is a website that allows secure communication between the patient and the medical practice for common interactions and transactions. The UHS Patient Portal is free-of-charge, confidential and accessible round-the-clock wherever you have internet access!

All patients will be web enabled at the time of their first visit to The University Health Services
If you wish to opt out of these services, please contact UHSIT@fsu.edu.

The Patient Portal is not intended for use in emergencies. If you require urgent medical care, call 911.
